

# **PROMAKAR FLOUR MILLS NIGERIA LIMITED**

## **COMPANY PROFILE**

# INTRODUCTION

We are a food processing and packaging company founded in 2015, specializing in the cleaning and milling of grains. Our NAFDAC-accredited flour processing facility in Ilorin, Kwara State, is fully equipped and can process 12 metric tonnes of flour and 60 metric tonnes of cleaned grains daily. With a team of highly skilled professionals, we operate with great efficiency to deliver premium-quality food products.

## VISION AND MISSION

### VISION

Our goal is to improve the lives of consumers, customers, communities, employees, and stakeholders by providing exceptional quality, valuable products.

### MISSION

To be Africa's leading food and agro-allied group in quality grain processing and flour production.

Grain  
cleaning

*Re-imagining local grains for global competitiveness*

# OUR PRODUCTS

We specialize in cleaning grains like soybeans, hibiscus groundnuts, sorghum, and various Nigerian bean types to meet global import standards. Our process also includes producing and packaging cleaned beans, bean flour, sorghum flour, and sorghum semolina for the local market.

## BEANS FLOUR

This is a nutritious and wholesome flour crafted from beans, ground to perfection. It's simple to use for bean dishes and retains its natural flavor.

## SORGHUM SEMOLINA

Our sorghum semolina, crafted from locally sourced grain, allows us to provide consumers with healthier and more affordable ball food, commonly known as "swallow."
